

**SafeBridge Consultants Announces TWO Potent Compound Safety Courses:**

**The original POTENT COMPOUND SAFETY “BOOT CAMP”<sup>®</sup>  
and**

**NEW ADVANCED CONCEPTS COURSE: “BOOT CAMP II”**

**September 28-30, 2010**

SafeBridge Consultants, Inc. is pleased to announce two training course offerings:

**1. The Potent Compound Safety “Boot Camp”<sup>®</sup> (Boot Camp I)  
September 28-29, 2010**

A comprehensive two-day course in pharmaceutical potent compound safety with a focus on training EH&S and related professionals in critical technical concepts and proactive safety programs in the pharmaceutical, chemical and biotechnology industries;

**2. NEW COURSE!! Advanced Concepts to Support Drug Development of Potent  
Compounds from R&D through Manufacturing  
SafeBridge Potent Compound Safety “Boot Camp II” (Boot Camp II)  
September 30, 2010**

A one-day advanced course with a focus on case studies and problem-solving to address potent compound safety issues in discovery, development, contract manufacturing and commercialization utilizing the “systematic” approach and the implementation of a comprehensive program required to successfully support drug R&D and manufacturing organizations.

A suggested pre-requisite for the Advanced Concepts course will be previous attendance at SafeBridge Potent Compound Safety “Boot Camp”<sup>®</sup> and/or significant experience in environmental health and safety applications in the pharmaceutical industry. You may register for one or both courses of training.

**Course Location:** Royal Sonesta Hotel Boston  
40 Edwin Land Boulevard  
Cambridge, MA 02142  
Reservation Phone: 617-806-4200 or [www.sonesta.com/boston](http://www.sonesta.com/boston)  
Groups Attendee Code: **866690**

Your instructors will be board-certified health professionals in industrial hygiene and toxicology with many years of experience in the pharmaceutical industry. The presentations and materials cover pharmaceutical industrial hygiene (IH), occupational toxicology, environmental toxicology, IH analytical chemistry, risk communication and elements of safety management. The American Board of Industrial Hygiene (ABIH) has approved the Boot Camp I course for 2.17 Certification Maintenance Points and Advanced Concepts Course (Boot Camp II) for 1.17 Certification Maintenance Point.

## Registration Fees:

<b>Boot Camp I</b>	<b>\$1975 for the first attendee, and \$1775 for each additional attendee for the same course from the same company</b>
<b>Advanced Boot Camp II</b>	<b>\$975 for the first attendee, and \$875 for each additional attendee for the same course from the same company</b>

### What You'll Learn in The Potent Compound Safety "Boot Camp"<sup>®</sup>

- Industry experience of potent compound over exposure incidents
- How to evaluate compound potency and toxicity
- How EH&S elements fit into the drug development process
- How to establish targets for air and surface monitoring methods
- How sampling methods should be validated
- How to plan and conduct an air monitoring study
- Engineering controls that are available and effective for pharmaceutical and chemical manufacturing
- Factors leading to worker exposure
- A systematic approach to safely handling research compounds and "unknowns"
- How to investigate incidents and communicate risk effectively
- Implementing a safety management approach in your company
- Environmental aspects of new drug approvals
- Potent compound definitions
- And much more!

### What You'll Learn in Advanced Concepts to Support Drug Development of Potent Compounds from R&D through Manufacturing: SafeBridge Potent Compound Safety "Boot Camp II"

- Data availability at each stage of the drug development process
- Containment and control, and handling guidelines for potent compounds at each scale of operation
- Problem solving using case studies in R&D and manufacturing of potent compounds
- Reviewing data obtained from occupational, non-clinical and clinical studies and industrial hygiene surveys and interpreting their applicability to case studies
- Potent compound safety issues with outsourcing as a paradigm for R&D and manufacturing of potent APIs and products
- And much more!

**Who Should Attend:**

- Pharmaceutical and chemical plant environmental health and safety professionals
- Pharmaceutical R&D safety coordinators
- Facility and process engineers
- Industrial hygienists
- Safety professionals
- Environmental engineers
- Pharmaceutical quality control and quality assurance personnel
- Plant managers

**Cancellation and Substitution Policy**

Your notice of cancellation must be received in writing (by letter, fax or Email) ten working days before the training course. All cancellations will result in a cancellation charge of 50% of the registration fee. The balance of the registration fee will be returned if the cancellation notification is received ten working days in advance of the course. No refund will be made if notification of cancellation is received beyond this time. The registration fee minus the cancellation charge may be applied to a similar training course if future course is held within 12 months of cancellation. We will be pleased to transfer your registration to another member of your company at any time. If you plan to send someone in your place, please notify us as soon as possible.
